## ABOUT US

Meissen is pioneering, innovative & passionate.  
We develop products of the highest quality.

Our collections are designed with the utmost  
attention to detail, providing luxury by creating  
uniquely trademarked high-end faucets.

Meissen makes use of state of the art technology  
and has an immense passion for innovation.

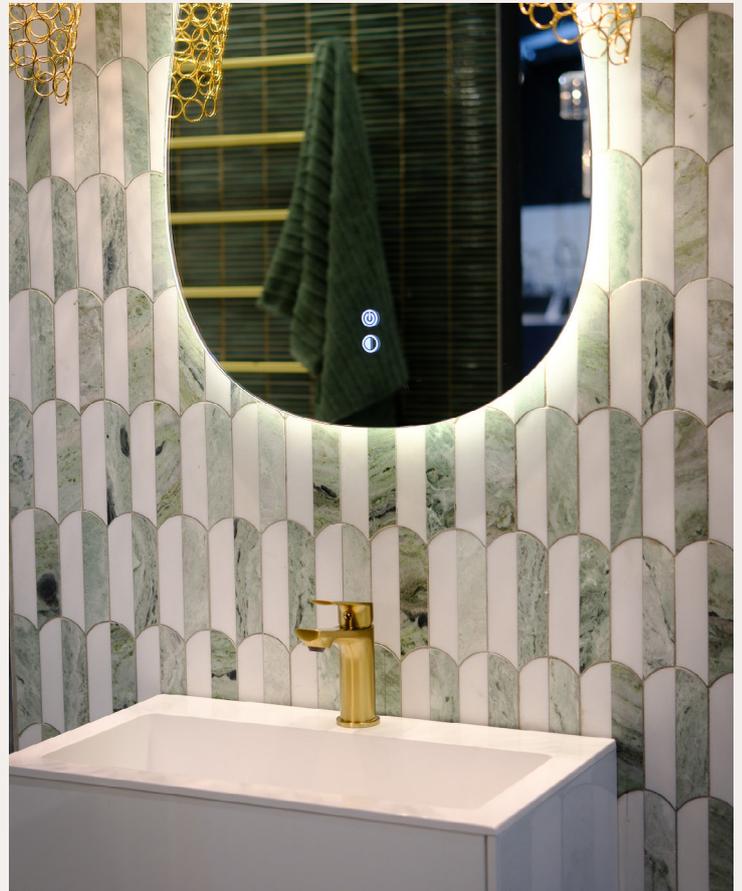

## YOUR VISION, OUR EXPERTISE

At Meissen, every piece begins with your vision and is brought to life through our expert craftsmanship. Rooted in refined aesthetics and precision engineering, Meissen products are beautifully made, blending timeless design with innovative performance.

Our dedication to detail, material excellence, and artisanal skill ensures that each creation not only enhances your space, but embodies your lifestyle.

## OUR DESIRE TO INSPIRE

At Meissen, our passion goes beyond creating beautiful bathroomware—we aim to inspire. Every curve, finish, and form is crafted with the designer in mind, sparking imagination and supporting creative expression. Whether you're an interior designer, architect, or style-driven homeowner, our collections are made to elevate everyday spaces into refined sanctuaries. With a focus on sculptural elegance and functional beauty, Meissen empowers you to design with intention and live with luxury.

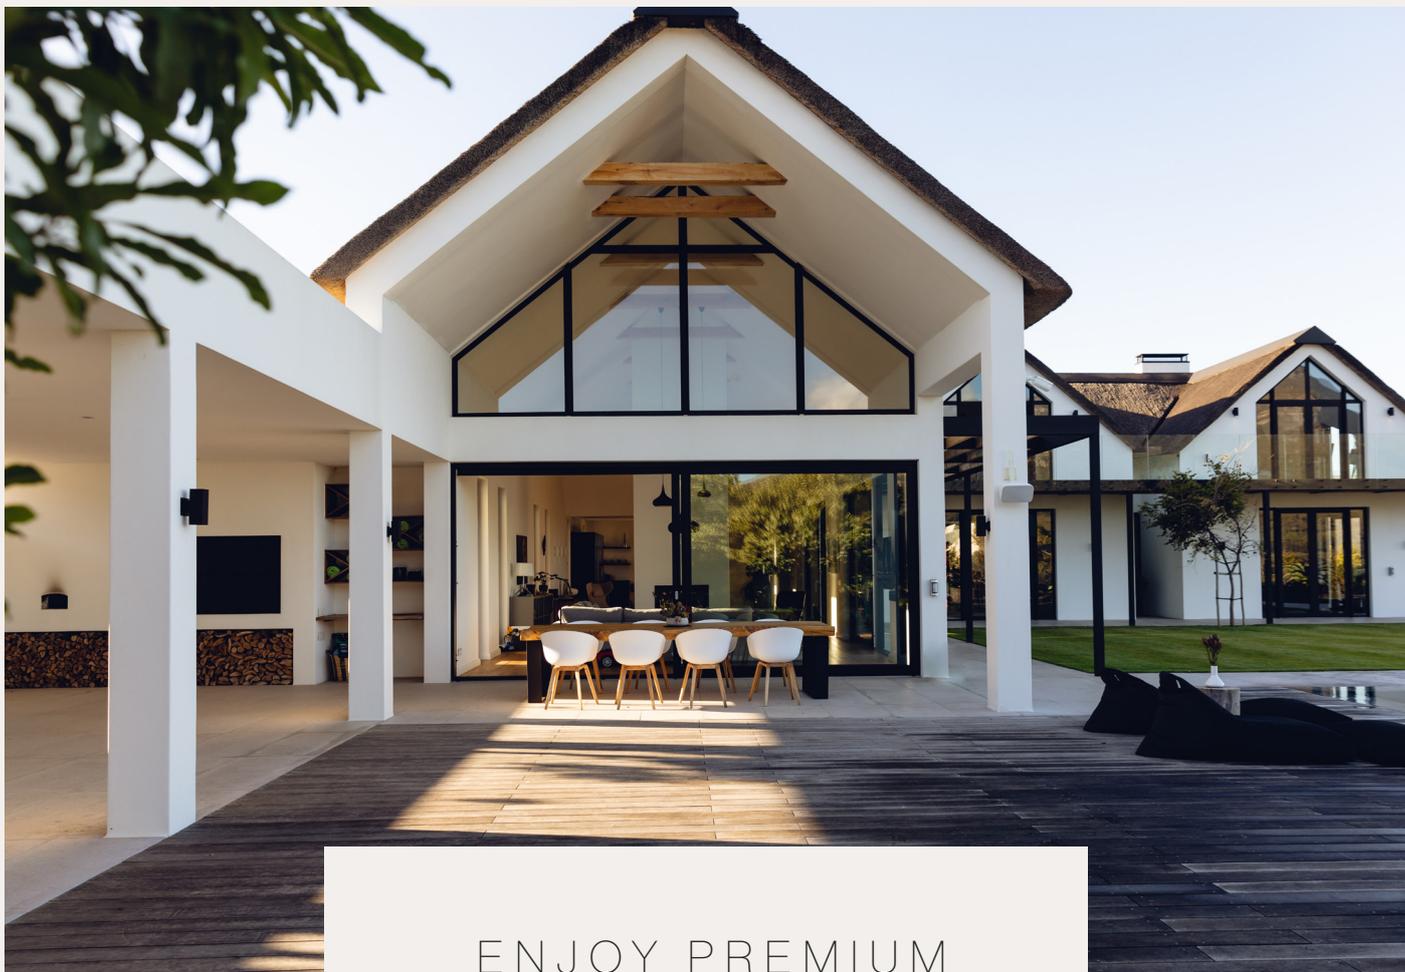

## THE BACKSTORY

Meissen was born from a desire to bring more choice to the world of luxury bathroomware. Noticing a growing gap between affordable and high-end products, our founders set out to create a brand that offers timeless design and exceptional quality - without compromise.

Today, Meissen stands proudly as an independent luxury brand, available at select retailers while remaining free from house-brand labels. This independence allows us to stay true to our design values and offer you a product that reflects both elegance and individuality.

ENJOY PREMIUM  
LIVING WITH MEISSEN

DESIGN FIRST  
ALWAYS.

“I enjoy a simple aesthetic. Less is more. With that being said the items in the space need to speak the volume required. I have found that through Meissen”

- Shelley Scribante, **House of Decor**

COLLECTION

ONEX  
COLLECTION

# FOR THE CLASSIC TOUCH

The name Onex comes from the idea of one, a symbol of unity, clarity and purpose. It reflects a collection created to offer essential form with enduring function. Rooted in German design principles, Onex delivers reliable performance and timeless elegance, making it the ideal choice for those who seek accessible sophistication that quietly elevates kitchens and bathrooms.

## ERGONOMIC DESIGN

The forward-leaning spout is purposefully angled to enhance user comfort and practicality. By projecting slightly outward, it ensures that the water stream reaches further into the basin, minimizing splashing and making everyday tasks like hand washing or rinsing more convenient. This thoughtful angle supports natural hand positioning, contributing to a smoother, more intuitive user experience.

## AFFORDABLE ELEGANCE WITH LASTING QUALITY

A perfect balance of form and function, this kitchen mixer offers a cost-effective solution without compromising on quality or aesthetics - delivering durable performance in a design that elevates any modern kitchen.

## FOR THE MODERN PURIST

The name Sterlyn is inspired by the word sterling, long associated with purity, quality and lasting value. It reflects the German tradition of strength through precision and materials that endure. With its bold geometry and refined finishes, the Sterlyn collection carries a strong architectural presence, balancing modern minimalism with timeless elegance.

## REFINED BY DESIGN

Its minimalist square-arc design delivers high-end sophistication without unnecessary complexity - clean lines, premium materials, and smooth single-lever control.

Built for modern kitchens that value both form and function, it offers a refined presence that quietly elevates the space without demanding attention.

## PREMIUM FINISHES

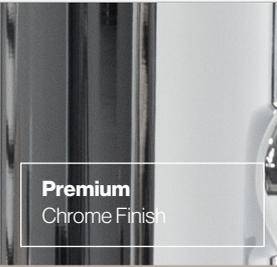

The Sterlyn Range is available in two timeless finishes: sleek chrome and sophisticated matte black. These versatile colour options enhance the collection's clean, architectural aesthetic, allowing it to seamlessly integrate into both minimalist and statement bathrooms. With its refined detailing and strong, structured design, Sterlyn brings a sense of modern elegance and edge to any interior.

Vita Satin Brass  
Wall-Type Basin Mixer  
SL220VIBR

Vita Double Black  
Exposed bath mixer  
SL120VIBB

Rooted in our heritage of precision engineering and clean-lined aesthetics, the VITA Collection embodies sculptural minimalism across four refined finishes, Satin Brass, Graphite, Double Black, and Chrome.

The wall-type basin mixer exemplifies this vision, blending sleek geometry with material warmth. Its crisp horizontal spout and seamlessly integrated lever reflect a balanced, harmonious design language that speaks softly yet confidently.

Designed for versatility, the AeroMax™ aerator can be swapped to increase flow rate, transforming the wall mounted basin mixer into a functional bath mixer.

Vita Graphite  
Freestanding Bath Mixer  
SL500VIG

Transform your bathroom into a personal oasis with the Meissen Freestanding Bath Mixer the centerpiece of any spa-like sanctuary. With its sculptural silhouette and refined finish, this floor-mounted fixture brings a sense of calm luxury to your space. Its seamless curves and minimalist form evoke tranquility, while the ergonomic hand shower offers both function and indulgence. Paired with a freestanding tub, the Meissen mixer invites slow, restorative rituals, where water flows with quiet elegance and every soak feels like a retreat. It's not just a fitting; it's the beginning of your own serene escape.

ATTIVO  
COLLECTION

Attivo Graphite  
Basin Mixer  
SL220A-G

# FOR A TAILORED BATHROOM EXPERIENCE

The name Attivo originates from the Italian word for active, but is closely linked to the German "aktiv", meaning energetic, purposeful and in motion. This connection reflects Meissen's German heritage, where design is created to adapt, perform and endure. The Attivo collection embodies this spirit through clean, sculptural lines and intelligent engineering. Its defining feature, the Activ Handle, which introduces its true modularity, allowing each fitting to be customised and transformed with ease. Attivo is a celebration of active living, refined, versatile and distinctly Meissen.

## Complete your bathroom with our **premium accessories.**

*Now available in all 5 premium finishes.*

Bathroom accessories like basin and bath wastes, bottle traps, and Nikkie spouts may be small in size, but they play a vital role in both function and design. These finishing touches ensure smooth drainage, conceal unsightly plumbing, and enhance the overall look of your space. Whether it's the clean lines of a polished bottle trap or the refined curve of a Nikkie spout, each detail adds to the seamless harmony of a well-designed bathroom — where practicality meets understated elegance.

A woman with long dark hair, wearing a white towel, is standing in a shower stall. She is smiling and looking upwards, with her right hand on a dark-colored shower control panel. The shower stall features two large, square rain showerheads mounted on a wall with a white, wavy, textured pattern. A small, square, recessed shelf is visible on the wall to the left of the woman. The overall atmosphere is bright and clean.

## THERMOSTATIC MIXER

### SAFE BY DESIGN

Enjoy every shower with peace of mind. The thermostatic cartridge keeps water at your chosen temperature from start to finish, automatically adjusting if household water pressure changes. A built-in safety stop limits heat to 38 °C, preventing accidental scalding and protecting the whole family.

### EFFORTLESS COMFORT

Set your preferred temperature once, and let the mixer do the work. Even if you pause the water, it will return instantly at the exact same setting when you turn it back on. No fiddling, no readjusting, just seamless comfort.

### SMART SAVINGS

Reach the right temperature faster and maintain it without fluctuation. This reduces wasted water and energy, lowering utility bills while supporting sustainable living.

### ENGINEERED TO LAST

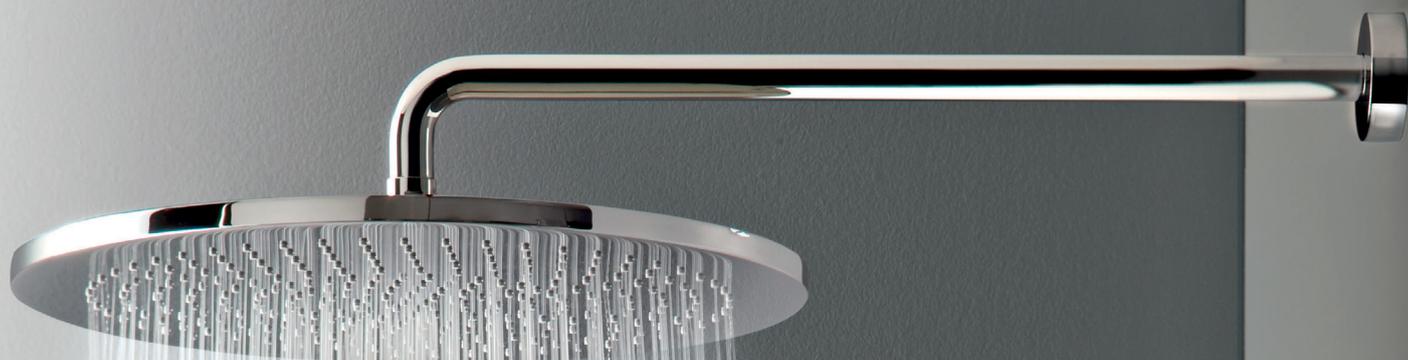

Tested to international standards and built with precision cartridges, the Meissen thermostatic shower mixer delivers consistent performance, durability, and a premium experience every time.

*A good shower is a daily indulgence, cleansing, awakening, and utterly refined.*

# MUST KNOW GUIDE

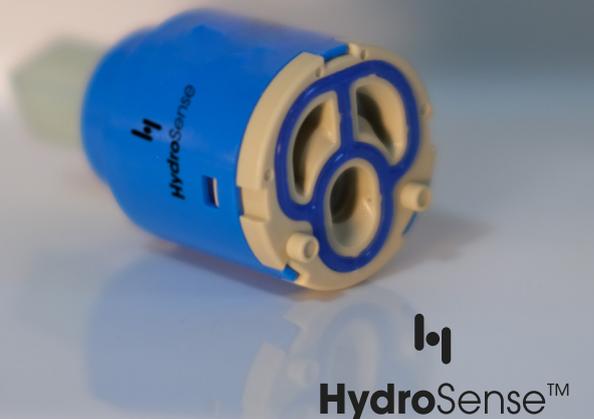

1

## Hydrosense Cartridge

**The heart of the faucet.**

Using the most advanced ceramic based cartridge technology. We ensure that our mixers deliver the best level of performance for all of our proud users by regulating the flow & temperature as efficiently and effortlessly as possible. All of Meissen's cartridges come with a 15 year guarantee.

2

## Aeromax Aerator

**Performance**

The aerator is a key component in the overall performance of a mixer. The aerator determines how the water is delivered to the user. Meissen's ranges of mixers utilize the best aerator technology available.

3

## DZR Brass

**SABS DZR Grade Brass**

Meissen's products are manufactured using the SANS standard of DZR brass, which was first introduced as a British standard and has been adopted by the SABS as a requirement in order to carry the SABS Mark.

**What is DZR brass?**

"Dezincification resistant brass" or DZR brass is the name given to brass with exceptional resistance to a form of corrosion called dezincification."

4

## Kwik-Fit Fixations

**Benefits**

The Meissen "KWIK-FIT" tubular fixation set provides the installer with an easier and more stable installation.

**How-to**

Simply secure the mixer to the basin or sink by tightening the tubular fixation with your hands as opposed to using a spanner / wrench. This is very useful when working in tight spaces.

5

## Flexible Hoses

### Braided Flexible Hoses

Meissen faucets come with 450mm long hoses, 15mm (1/2") which makes for a far easier installation. The extra 100mm provides more than adequate length, no matter whether it is a retro-fit or new installation. The short & long male ends provide more space for the installer to thread the hoses into the mixer. Our hoses come with 2 o-rings, this provides twice the sealing security. All Meissen hoses are SABS approved.

6

## Finish & Surfaces

### Chrome

Using advanced electroplating techniques, all of Meissens radiant chromed products receive the highest level of chroming that technology has to offer. Meissen products undergo a 200 hour salt spray test, which is one of the most widespread and long-established corrosion tests.

### Colours

**PVD / Physical Vapor Deposition** - Vita & Attivo Satin Brass & Graphite.

**Powder Coating** - Vita & Sterlyn Double Black.

**Brushed** - Attivo Brushed Stainless Steel

7

## Guarantee. Our Promise

### Chrome

Our Meissen signature collection of chrome faucets come with a 15 year Guarantee on manufacturing defects, and a 10 year guarantee on Meissen's shower collection of chrome products. Be sure to have a look at our website for more information on our guarantee.

### Colours

All of our Meissen colours come with a 5 year Guarantee on manufacturing defects.

8

## SABS Approved

### What does this mean?

"The SABS mark is a process of certifying that a certain product has passed performance tests and quality assurance tests and meets qualification criteria stipulated in a standard, specification or regulation."

# CARE AND MAINTENANCE GUIDE

To ensure the absolute best results when caring for your meissen products, please follow the instructions in the guide carefully.

## AERATOR MAINTENANCE

The Aeromax advanced aerator will have to undergo occasional cleaning; to do so, unscrew the aerator in an anti-clockwise direction. Remove any impurities and small particles that may have collected by rinsing with clean water.

## CARING FOR YOUR MEISSEN PRODUCT

 <p>Never use abrasive or coarse surface materials to clean.</p>	 <p>Drying the surface with a soft cloth after rinsing reduces water deposits.</p>	 <p>If ever chloride containing cleaners are used (not recommended), ensure you rinse the surface immediately to prevent corrosion.</p>
 <p>Lime-scale deposits may be more visible on the powder coated finish around the aerator housing and dome cover.</p>	 <p>Ensure to clean your stainless steel faucet at least once a week. If you live on the coast, at least every 2 days.</p>	 <p>Do not use any aggressive cleaning agents containing ingredients such as chlorine, bleach, formic acid, acetic or hydrochloric acid to clean your faucet. Only warm water.</p>
